

Fundu Lagoon

GETTING THERE

Just off the east of coast of Tanzania, lies the natural and peaceful island of Pemba and our jungle camp Fundu Lagoon.

Tanzania is very accessible from European, with regular flights from the UK, Holland & Switzerland. Travellers from the United States tend to fly via UK or Holland. Guests coming in from Asia usually head in via Dubai with daily flights with Emirates.

Guests may fly to Pemba from Dar-es-Salaam or Zanzibar daily with the normal scheduled flights. Scheduled flights from Dar-es-Salaam always transit in Zanzibar and have a strict baggage allowance of 15kg per person.

A number of convenient private charter options are available from both Dar-es-Salaam & Zanzibar, from 3 seat to 12 seat planes.

Charter flights may be organised to connect with international schedules, reducing waiting time in airports and also reducing time lost by transit stops in Zanzibar, as is normal with the scheduled flights.

Rates for a Dar-es-Salaam to Pemba charter start from US\$900net per aircraft – one way, with a flight time of just 1hour. Baggage allowances are also more flexible with private charters. For more information please contact our reservation staff on reservations@fundulagoon.com

Following your flight you will arrive at Pemba's airport in Chake Chake, which is located at the centre of the Island. Our staff will be waiting to greet you just outside the arrival area. From here you will transferred to Mkoani harbour, this interesting journey will take you past beautiful villages and lush agricultural areas. These transfers take approximately 45 minutes. We then provide a private boat (20-25 minutes) which cruises from Mkoani Port around the peninsular to Fundu Lagoon.
