## Why We Are Different

### *Passionate About (Your) Travel*

Competence and knowledge for us does not mean just having read or heard about a place, but having been there in person, knowing how to get off the beaten track, having local contacts that make the difference and working with the right service providers who are the best in what they do.

Your personalised travel consultant has travelled almost everywhere in Southeast Asia, visiting all the best hotels, experiencing first hand the greatest majority of tours and activities he will propose to you.

### *(Small) Size Matters*

Being deliberately a small organization and having only a few clients to look after, we can afford to spend as much time as needed to make sure you get exactly the holiday you want.

Big established tour operators simply cannot afford to do this, as they are limited by their size and consequently by the fact that their profitability targets do not allow them to spend much time talking to you and personalizing your travel to the extent we can.

### *Personalised Travel Solutions (as the Only Way of Truly Travelling)*

First and foremost we are travellers like you, inquisitive people who have always felt that travelling in a big group as part of a package tour limits possibility to really enjoy the best and the truest experience that a location could offer. That is why we have decided to go a step forward and make of the customisation of travel solutions our profession.

Whether you are looking for simple advice on where to go and what to do, help with managing all hotel reservations and transfers or to design and manage from A to Z your travel to this fascinating and exotic destination, we are here to serve you.

### *(Of Course) Responsible and Sustainable Travel*

For us responsible tourism is not another form of niche tourism or a marketing move to attract socially and environmentally aware travellers, it is simply the only way, the foundation upon which we conduct our business in those countries we offer travel arrangements to.

And responsible travelling also means a better experience and a better product to travellers, enabling them to come closer to the real living heritage and natural beauties of the countries they visit.

*mcube Travel Boutique*, conceived by Milo Guastamacchia and Michele Bellabarba, is a competent travel advisor and arranger that focuses on providing you with first-class tailor-made travel experiences.

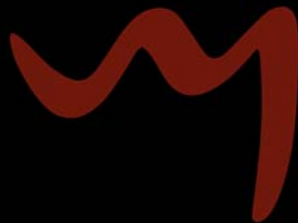

Specialized in tailor-made travel solutions in Asia and worldwide private sailing charters, the company directs its marketing efforts out of its London base but benefits from the knowledge of a travel expert based in Southeast Asia for the most part of the year.

After years in the financial industry, Milo has decided to transfer his organizational skills, attention to detail and excellence in delivering customised solutions to clients to the travel industry, which has been a life-long passion of his. He has travelled long and wide in Southeast Asia, thus acquiring the necessary local knowledge and establishing the required local partnerships to be able to advise and implement first-class travel solutions meticulously studied to fit the needs and interests of our clients. Michele, a graduate in Economics with a passion for theatre and acting and employed for many years in the financial industry, is in charge of client relations and marketing from our London headquarter.

Together Milo and Michele direct the travel boutique with the aim of allowing you to experience Asia the way it can never be experienced as part of a standard package tour, with minute attention to quality, serving you the way you deserve and building around you the most suitable and unique travel experience.
